Scientists and engineers who are interested in the themes of ICEEP IV are kindly invited to electronically submit their full papers in the topics related to, but not limited to the Conference Themes:

## CONFERENCE THEMES

### 1. Energy

- . Energy Resources & Demand
- . Energy System & Networks
- . Energy Transport, Electricity & Fuels
- . Modeling of Energy & Systems
- . Renewable Energy Resources & Technologies
- . Energy Auditing & Rational Use of Energy
- . Advanced Energy Technologies
- . Energy Saving Technologies
- . Development & Utilization of Renewable Energy
- . Energy Security
- . Green Building

### 2. Environment

- . Climate Change & Global Warming
- . Environmental Systems & Telecommunication
- . Environmental Education
- . Environmental Safety & Health

- . Environmental Data & Information Management
- . Water Resources & Future Conflicts
- . Solid Waste , Waste Water Treatment & Management
- . Soil Contamination
- . Natural Resources Management
- . Air Pollutions Control
- . Noise & Vibration Control

### 3. Planning & Policies of Sustainable Development

- . Environmental Policies, Planning & Economics
- . Energy Policies, Planning & Economics .
- . Environmental Protection & Policies
- . GIS Techniques in Energy & Environment
- . Urban &Regional Planning
- . The Global Climate Change & International Cooperation On reducing Carbon Emissions
- . The Analysis of National Energy Strategy & Decision-Making

- Effects of Israeli Occupation on Palestinian Energy & Environment.

## CONFERENCE EXHIBITION

On the sidelines of the conference, a specialized exhibition in the field of energy & environment will be organized; partners from industrial & commercial sectors are welcome to honor us and participate.
