يلقيها م. أحمد زعرور

وذلك يوم الثلاثاء الموافق **2017/3/28**، الساعة 2 بعد الظهر  
في قاعة Masri305 (مبنى منيب رشيد المصري لتكنولوجيا المعلومات)  
أهلاً وسهلاً بكم.

Eng. Ahmad Zaroor's Bio:

10+ years of experience in Developing and Integrating intercommunication Applications and VAS services and Systems. 5 + Years in Managing Development and Integration Teams.

During the 10 Years working in Jawwal (Palestinian Telecommunication company) i had the chance to work closely with state of the arts systems and applications, along with high qualified teams from all over the world. As Team leader in a Telecommunication working closely with Development and Integration team we have developed and maintained high quality products and services that helped our company to achieve remarkable profits and a position ahead in the Palestinian market. Recently i have been working as a Technical Project manager for a new BSS transformation program , that includes replacing the company's Billing and CRM systems and introducing state of the art technologies and systems within the world's Telecom standards.

I have worked closely with Solutions Architects , Program Managers and Quality Assurance experts to achieve high quality processes and systems for the company
