

## **THANK YOU, BZU!**

The International Summer Work Camp 2018, hosted by Birzeit University, has exceeded all my expectations. The local students and staff at BZU made our experience unforgettable. The international students from around the world were all very friendly and provided excellent feedback and perspectives during our time in the camp. This camp is an amazing opportunity for students to learn more about the culture, history, and current situation in Palestine while completing humbling volunteer work. It gave me the opportunity to see and learn about many different cities in Palestine. I would highly recommend the ISWC in Birzeit for anyone interested in traveling, sightseeing, or learning more about the extensive history and culture of the people in Palestine.
