Anas Abdelrazeq

Bio:

Anas Abdelrazeq is a Birzeit University graduate from the major of Computer Systems Engineering in 2009.

Since 2015, Anas has been working as a scientific researcher at the institute of "Information Management in Mechanical Engineering" (Cybernetics Lab in Aachen). Currently, he is fulfilling the position of head of research group "Digital Transformation in Working Environments". In the summer of 2020, Anas gained his Dr.-Ing. (Doctor Engineer) degree in the field of 3D Vision (Augmented Reality) and Cloud Computing. Before that, Anas finished his Master's degree in Software Systems Engineering at the RWTH Aachen University focusing on applied computer science gaining knowledge and experience in different fields especially in machine learning, computer vision, mixed reality applications.

In his research group, digitalization questions in different domains are tackled as of digitalizing futuristic assembly processes, production lines and construction sites in the domain of Industry 4.0. A huge focus is also given to the human part of the process. At the moment, his group is leading different German and European-wide projects,
